Attention: Mr. T. Hartman

Re: Albion/Sheridan Township Land Fill
Gordon Stevick, Proprietor

Dear Mr. Hartman:

As you know, the above entitled landfill operation is scheduled to close on September 1, 1981. Due to the fact that requests have been received from the City of Albion and several local industries and businesses, we are hereby formally requesting an extension of time to operate the landfill until September 30, 1981.

The extension of time would accomplish several things. It would give Scott Brothers the time necessary to complete the installation of their waste transfer station thereby allowing uninterrupted service at the same location as the local population have become used to having their rubbish and garbage taken care of. It would allow Mr. Stevick additional time to provide for final cover at the installation. It would allow local industries an additional thirty days to finalize their alternate sources of disposal.

If the foregoing is not feasible, a request to allow Hayes-Albion to use the facility to dispose of sand during this thirty-day period would be of great help to Mr. Stevick in filling the final waste disposal site at the facility.

Your favorable consideration of the foregoing request for extension would be greatly appreciated. I apologize that this request is reaching you so late in the day, however I thought we would have been having additional telephone conferences. If you have questions, please advise.

Very truly yours,

Charles C. McClafferty
